

## GREAMARK RBA1 Articulated Dump Truck Tire

GREAMARK RBA1 is a high-stability full-steel radial tire exclusively designed for articulated dump trucks (ADT). It features a versatile tread pattern and superb stability, delivering excellent traction, comfortable ride, and air leakage prevention for construction, stockpile, and loading applications.

### Usage of Application

- Articulated dump truck operations: Matches ADTs in construction and mining projects
- Construction site stockpiling: Supports material stacking and transportation
- Heavy-load loading applications: Facilitates loading and hauling of construction aggregates
- Complex terrain logistics: Adapts to uneven, gravelly, and muddy job site roads
- Long-distance hauling between job sites: Maintains stability and comfort during continuous operations
